

Task Management System

- The Task Management System (TMS) is a sophisticated, centralized platform to optimize task management processes, enhance streamline approval workflows. By addressing challenges such as limited visibility and inefficient communication, TMS ensures timely task delivery and helps in effective collaboration among teams.

Purpose

- Enable task plan submission and management.
- Streamline manager review and approvals.
- Provide real-time task visibility and analytics.
- Support data-driven incisive decisions.

Key Objectives

- Real-time task and team performance visibility.
- Efficient task and approval workflows.
- Enhanced communication via notifications.
- Secure role-based access.
- Actionable insights via reports/dashboards.

System Capabilities

- Real-time task tracking with visuals.
- Structured approval workflows.
- Automated alerts for actions/deadlines.
- Secure, scalable system with role-based access.

Core Functionalities

1. Task Management

- Create and assign tasks with specific parameters.
- Monitor task progress with status indicators and milestones.
- Manage task lifecycle from creation to completion, with archiving.

2. Action Plan Management

- Employees submit daily task plans with timelines.
- Track plan statuses (e.g., Started, In Progress, Completed, Under Approval).
- Managers review, approve, or reject plans with feedback.

3. Approval Workflows

- Employees submit task completion requests.
- Managers review requests, approving or rejecting with comments.
- Automated notifications for pending actions and updates.

4. Reporting and Analytics

- Generate reports on task progress, team, and individual performance.
- Export data in PDF, CSV, or Excel formats.
- Role-specific dashboards with key metrics.

Benefits

Managers can easily review with less paperwork, clear team reports, and quick fixes for delays. Employees get clear tasks for better focus, visible recognition of their work, and fast, helpful feedback.

1. Open Banas Setu and in Service Projects click on this to open the Login Portal of Task management System

2. Open web browser and type the following IP- 10.40.0.33:3002 in the address bar and press enter key to redirect to the login portal of Task Management System.

These fields will fill in automatically based on the user's department.

The screenshot shows the 'Task Management System' interface. On the left is a sidebar with navigation links: Dashboard, Projects (highlighted), Create Project, Review Projects, Review Action Plans, and Reports. The main area contains a form for creating a project. At the top right of the form area, the user's name 'Kalpesh F Chaudhary' and title 'Manager' are displayed. The form fields are as follows:

- Dept Code:** A text input field containing the value '12'.
- Department:** A dropdown menu showing 'Systems'.
- OSTA No:** A text input field with a placeholder 'Enter OSTA No'.
- Name of OSTA:** A dropdown menu showing 'Select OSTA Name' with a '+ Add New OSTA' link below it.
- FSTA Name:** A dropdown menu showing 'Select FSTA Name' with a '+ Add New FSTA' link below it.
- Project Name:** A text input field with a placeholder 'Enter project name'.
- Product Requirements Document (PRD):** A section with an 'Upload File' button and a note: 'Upload PRD file (PDF, Word, Excel, Text, or Image files up to 10MB)'.
- Description:** A large text area with a placeholder 'Enter project description'.
- Start Date:** A date picker showing 'dd-mm-yyyy'.
- End Date:** A date picker showing 'dd-mm-yyyy'.

At the bottom right of the form are two buttons: 'Cancel' and 'Create Project'.

In this section, managers can initiate new projects aligned with OSTA and FSTA frameworks, including detailed descriptions and set deadlines for each project.

In this Section, Managers can review Project approvals submitted by employees.

In this Section, Managers can review Action plans submitted by employees.

By Clicking in the Generate report the Reports Summary will be Generated

In this Section, Managers can view project reports, analyze bar charts, and download summaries for all projects or individual projects in PDF and Excel format.

This is the Employee Dashboard, where employees can view all projects assigned to them, access detailed project information, and review the action plans they have submitted for each specific project.
